

Amendments to the Specification (Substitute Specification):

Please replace the paragraph on page 5 contained in lines 12-15 with the following amended paragraph:

--Referring now to the drawings, and particularly Figures 1 and 2 is a side elevational view of the stitchless binding device for finishing a material comprising a carpet having a pile 7. It will be appreciated, however, that the binding device can be used on upholstery, window treatments such as cornices, pillows, and other materials requiring a binding to finish an edge.--
